

ADSW AGENDA FROM COP27

TOGETHER FOR
IMPLEMENTATION

NOVEMBER 9-17, 2022
SHARM EL-SHEIKH, EGYPT

WELCOME TO THE ADSW AGENDA

We are at a pivotal moment in history; over the coming years we will need policy, business and industry to come together to deliver positive climate action that will unlock economic opportunities, support a just, pro-growth, pro-climate energy transition and accelerate a pragmatic pathway to achieve the goals of the Paris Agreement.

The UAE has a legacy of innovating climate solutions and clean technologies at scale, a strategy that has been actively pursued for over a decade through Masdar, our flagship renewable energy company – a company I helped found and am honored to be the Chairman of.

Abu Dhabi Sustainability Week (ADSW), a Masdar strategic initiative, is also a key example of the UAE's climate leadership. Anchored by its flagship event held in Abu Dhabi every January, ADSW demonstrates the UAE's commitment to addressing global challenges as a responsible energy leader, providing the perfect platform to advance critical dialogue around climate change and the energy transition.

To support the Egyptian presidency of COP27, ADSW presents ADSW Agenda from COP27, a high-level program of events on the sidelines of this important gathering that will showcase how countries are coming together to deliver real climate solutions and to align with the theme of COP27, Together for Implementation.

The ADSW Agenda from COP27 will also pave the way to ADSW in January 2023, as we gather momentum for COP28 in the UAE next November, where the focus on clean energy and climate action will continue. As we all work towards a productive COP27, we hope that you will join the conversations that the ADSW Agenda from COP27 is driving, and we look forward to welcoming you to the UAE next year for ADSW 2023 and COP28.

HE Dr Sultan Al Jaber

UAE Minister of Industry and Advanced Technology,
Special Envoy for Climate Change
and Chairman of Masdar

ABOUT ADSW

Abu Dhabi Sustainability Week (ADSW) is a global initiative championed by the UAE and its clean energy powerhouse Masdar to accelerate sustainable development and advance economic, social, and environmental progress.

Established in 2008, ADSW brings together heads of state, policy makers, industry leaders, investors, entrepreneurs and youth, to discuss and engage on bold climate action and innovations that will ensure the next generation a sustainable world.

ADSW AGENDA FROM COP27

ADSW will continue to build on its global momentum during COP27, offering a series of events that will take place from November 9-17, enabling impactful dialogue between global stakeholders on practical, pro-climate, pro-growth solutions for a net-zero future.

The ADSW Agenda from COP27 will feature leaders from a variety of sectors, including clean energy, technology, government, and financial institutions. It will also feature meetings of Masdar's strategic platforms Women in Sustainability, Environment and Renewable Energy (WiSER), Youth 4 Sustainability (Y4S), and the Zayed Sustainability Prize.
